

# Unified Crime Statistics for Putnam County

The Unified Crime Reporting Program is a nationwide, cooperative statistical effort of approximately 17,000 city, county, and state law enforcement agencies, voluntarily reporting, data on crimes which is administered by the FBI. The modified crime index (MCI) is composed of selected offenses used to gauge fluctuations in the overall volume and rate of crime reported to law enforcement. The offenses included are (the violent crimes of (M) murder and non-negligent manslaughter, (Rape) forcible rape, (Robb) robbery, and (AA) aggravated assault, and the property crimes of (Burg) burglary, (Larceny) larceny-theft, (MV theft) motor vehicle theft, and (Arson) arson.

Most crimes in the Towns of Carmel and Kent are reported by their residents to their respective police departments. Crimes occurring in the remaining four towns that comprise Putnam County are either reported to the (NYSP) New York State Police or the (PCSO) Putnam County Sheriffs Office-Department. Putnam County is considered one of the most safest counties in New York State and also in the United States.
